COAL FAMINE IS THREATENING SPAIN

Associated Press by Federal Wireless] MADRID, Spain, May 15 .- Spain is threatened with a coal famine. Most of the coal burned here formerly came from northern France, Belgium and England. Germany holds the Belgian and French coal fields and England has put an embargo on shipments of coal and coke, except to her colonies and allies. The government is worried and is seeking relief from the

F. O. B. HONOLULU.

INCLUDING FULL EQUIPMENT.

The VIM is not the first light delivery car made in America, but it is the first light car to be designed strictly along commercial car lines. It contains the high grade mechanical features of large, costly trucks, with the lightness, economy, and adaptability of the light car. There is nothing of the makeshift cheap or theoretical about the VIM. It is a staunch, sturdy, rugged, high-quality car of one thousand pounds capacity, which gives universal satisfaction, because it offers a practical solution of the demand for quick, efficient and economical delivery.
